

Exercise 21 Working with Operators

15 to 25 minutes

In this exercise, you will practice working with JavaScript operators.

1. Open VariablesArraysOperators/Exercises/Operators.html for editing.
2. Add code to prompt the user for the number of albums she owns of her favorite and second favorite rockstars'.
3. In the body, let the user know how many more of her favorite rockstar's albums she has than of her second favorite rockstar's albums.
4. Test your solution in a browser.

*Challenge

1. Open VariablesArraysOperators/Exercises/Operators-challenge.html for editing.
2. Modify it so that it outputs an unordered list as shown below:
