

Exercise 9 Adding a Select Menu and a Textarea

15 to 25 minutes

In this exercise, you will add a select menu and textarea to the registration form. At completion, the form should look like this:

The screenshot shows a web browser window with the title 'Registration Form'. The address bar shows 'Bestand | C:/Users/hq0...'. The form contains the following elements:

- Registration Form** (Title)
- User name:
- Password:
- Where did you hear about us?
- Gender: ☐ Male ☐ Female
- Comments:
- Click to accept our terms: ☐
- Register

1. Open Forms/Exercises/RegistrationForm.html for editing if you don't have it open already.
2. Add the following input elements:
 - a. select: name and id should be "referral". Options should be:
 - i. "--Please choose--" with value of "0"
 - ii. "Word of Mouth" with value of "wom"
 - iii. "Other" with value of "other"
 - iv. Option group with label of "Search Engine" and the following options:
 1. "Google" with value of "Google"
 2. "Yahoo!" with value of "Yahoo"
 - v. "MSN" with value of "MSN"
 - b. textarea: name and id should be "comments". Be sure to include cols and rows attributes.
3. When you are done, open the page in a browser, and fill out and submit the form.
