**Exercise 4   Adding Images to the Page**
5 to 10 minutes

In this exercise, you will add an image to index.html. The resulting page is shown below.

1.   Open Images/Exercises/index.html for editing.

2.   Add the image called RunnersHome.gif in the Images/Exercises/Images directory, so that the page appears as shown in the screenshot above.
    •   The alternative text should be "Runners Home Logo".
    •   There is no need for a long description.
