**Exercise 13   Divs and Spans**
10 to 20 minutes

In this exercise, you will add class and id attributes to div and span tags to an already existing HTML page. The HTML page already contains an embedded style sheet, which you will not need to modify. Your goal is to make the page render as follows.

There are no step by step instructions. Review the rules in the embedded style sheet and apply classes and ids as appropriate.
